CRYSTAL LENS TECHNOLOGY 2.0
THE ENLIGHTENMENT
IN WELDING.

A triangular metal lens with a brushed metal texture is centered in the foreground. The lens has the text "CLT2.0" engraved on its front face. The background is a circular arrangement of numerous fiber optic cables, each emitting a small point of light. The colors of the light transition from blue and green at the top to purple, pink, and yellow at the bottom, creating a rainbow-like effect. The overall scene is set against a solid black background.
